Handling Document can be tricky, especially if you work as Management company that manages property, lot of documents need to be handled whether based on Internal, External, Vendor, etc.

First, let's imagine in one day how many Rims of paper used. And how to save all of those documents? It will be costly and hard to maintain.

Second, lot of documents intertwined with lot of Parties, hard to manage sometimes for those who need to sign the documents and sometimes hard to track especially the documents that need to be processed asap.

This app solely solving those problems, with main features of Handling Documents Directory on digital, and Approval become easier since we just need App to finish the task.
